## PREFACE

This bibliography is the seventh in a series compiled to respond to the information and research needs of the councils established by Ontario Training and Adjustment Board (OTAB). It is also intended to enable decision makers, practitioners and others interested, to locate information quickly and easily.

The purpose of this bibliography is to provide citations on **school-to-work transition**. It includes general studies on school-to-work transitions as well as policy papers, models and case studies about school-to-work transitions in various jurisdictions, including Australia, Canada, Europe and United States.

Although international in scope, the bibliography is limited to mostly English-language sources published since 1980. Important policy and position papers published prior to 1980 have also been incorporated. It includes books, reports, journal articles, monographs and papers presented at conferences. The references are listed alphabetically by author. Where more than one listing for an author is included, the citations are for that author are then listed alphabetically by title.

The bibliography is intended to serve as a starting point for research. Due to the linkages among issues across Council areas of responsibility, readers may wish to refer to other bibliographies in the series not directly related to their program areas.

The following is a list of the series of selective bibliographies compiled by the OTAB Resource Centre:

- Bibliography No. 1 : Apprenticeship
- Bibliography No. 2 : Labour Adjustment
- Bibliography No. 3 : Workplace Training
- Bibliography No. 4 : Sectoral Training
- Bibliography No. 5 : Basic Skills in the Workplace
- Bibliography No. 6 : Youth Employment
- Bibliography No. 7 : School-to-Work Transition
- Bibliography No. 8 : Return to Work Issues
- Bibliography No. 9 : Broader Public Sector Training
